

# Covid 19 Procedures for our After School Program

1. Upon entering our vans, the kids will be given hand sanitizer.
2. Upon arriving at the Dojang, a temperature check will be made and if a child has a temperature more than 100.4 degrees, he/she will be placed in the second office and parents will be notified to pick their child up. We cannot accept any children with a temperature if he/she is being dropped off by a parent.
3. After dropping off their things in their own space, they will be required to wash their hands.
4. The vans will be sanitized after each route.
5. The Dojang will be thoroughly cleaned before the kids arrive and at 5:30pm every day.
6. Parent that are dropping off or picking up will need to stay in their vehicles. We will walk your child to your vehicle. As a courtesy to our neighbor businesses, please park and remain in your vehicle if a line has formed during pick up or drop off. We will move the line as efficiently as possible.
7. The maximum number of children currently accepted is 35.
8. Although we are big promoters of wearing masks, we will not require them due to the amount of physical exercises that we do in the dojang. We will instead promote social distancing as much as possible in our facility.
9. If you choose the all day virtual school option in our facility, we encourage the use of masks. The tables will be set up with plenty of space between the kids and table and chairs will be cleaned and sanitized before and after each use.

## How you can help as a parent:

1. To prevent unnecessary use of the water fountain, please pack your children a water bottle every day. We will not turn the water fountain off, but it will be sanitized twice daily.
2. Try to pack your child's snack with bags, containers, bottles, etc. that they are able to open by themselves.
3. If you are dropping off your child, please check the temperature of your child at home before leaving.
